

Kenyi Kubari

Winnipeg, MB | (431) 588-4992 | kenyikubari@outlook.com | <https://linkedin.com/in/kenyikubari/>

EDUCATION

University of Manitoba, BSc Mechanical Engineering

Winnipeg, MB | 09/2021 - 4/2026

Concentrations: Solid Mechanics & Thermo-Fluids | Minor: Computer Science

Relevant Coursework: Computational Fluid Dynamics, Finite Element Analysis, Object-Oriented Programming, Fluid Mechanics, Numerical Methods, Mechanics of Materials, Aerodynamics, Engineering Mathematical Analysis, Computer Aided Design

Awards: Dean's List, UMSU Bursary (2022), Price Faculty of Engineering Bursary (2022), MSBI Bursary Fund (2023), Jinxi Ma Bursary in Engineering (2023), Baden-Württemberg Stipend (2024)

TECHNICAL SKILLS

- **Programming:** Python, MATLAB, C++, Java, R, Rust
- **Engineering & Simulation:** SolidWorks, 3DEXPERIENCE, ANSYS (APDL, Mechanical, Fluent)
- **Scientific Computing & Visualization:** LaTeX, Typst, Jupyter Notebook, Tecplot
- **Tools & Software:** Git, SQL, Linux, Microsoft Office

WORK EXPERIENCE

Research Assistant

University of Manitoba, Winnipeg, MB | 04/2023 - 10/2025

- Characterized temperature-dependent diffusion coefficients during controlled heat treatment of metallic systems.
- Fabricated metallurgical samples using electrical discharge machining, grinding, and precision polishing.
- Analyzed diffusion behavior using SEM and EDS imaging with MATLAB and Python data processing.

Research Assistant

RWU, Weingarten, Germany | 05/2024 - 08/2024

- Modeled transient temperature distribution in LiFePO₄ battery cells using C++ finite element methods.
- Evaluated battery performance using Python data visualization and comparison with experimental results.

Powertrain Lead

UMSAE Formula Electric, Winnipeg, MB | 09/2021 - 09/2025

- Integrated electric powertrain system, optimizing motor placement and structural mounting.
- Led thermal management, as well as the mechanical designs for power generation and transmission of the car.

Data Student

City of Brandon, Brandon, MB | 04/2022 - 09/2022

- Developed asset categorization framework for water treatment infrastructure in the Lumin CMMS platform.
- Gained practical experience with PLC systems and municipal water treatment operations.

PROJECTS

Bachelor Thesis: Turbulent Fluid-Dynamics

Winnipeg, MB | 09/2024 - 04/2025

- Investigated turbulent flow separation around trapezoidal prisms using water-channel experiments and PIV

Capstone Project: Motor Coach Industries

Winnipeg, MB | 09/2024 - 04/2025

- Developed a standardized engineering design methodology for coach doors and redesigned the rear service door.

Quadruped Robot Dog with Autonomous Payload Delivery

Winnipeg, MB | 09/2025 - 12/2025

- Designed and built a quadruped robot using SolidWorks and implemented Python-based navigation and control.

Mechanical Property Analysis of Polymer Cellular Structures

Winnipeg, MB | 10/2024 - 12/2024

- Performed FEA simulations in ANSYS APDL to evaluate shear and tensile performance of polymer lattice unit cells .

VOLUNTEER EXPERIENCE

Volunteer Coordinator

CMSE | 07/2023

Presenter

Aerospace & Aviation in Manitoba Day | 05/2023

Youth Representative

ESSCA CANADA | 09/2024 -

Event Safety

Winnipeg Jazz Festival | 07/2023

MEMBERSHIPS

Memeber

Society of Automotive Engineers | (2022-)

Student Member

Canadian Society of Mech. Eng. | (2023-)

Student Member

Engineering and Geoscientist Man. | (2022-)

Member

ESSCA Canada | (2023-)

OTHER SKILLS & INTERESTS

Languages: English (Fluent), French (Intermediate), Arabic-Juba (Intermediate)

Interests: Basketball, Volleyball, Football, Sneakers, Men's Fashion, Chess, Real Estate
